While the Spanish Flat Village Fest was going on Stephano was in his kitchen making Pumpkin Raviolis For his Special Dinner Menu. Yum!

Greetings Lake Berryessa Watershed Partners,

I am writing to inform you of the huge success we had over the weekend! It was an outstanding event! Approximately 136 people came out for the cleanup including three boy scout troops. Jason Jordan of the BOR did an excellent job in recruiting the troops. Those boys really worked hard. In addition to the troops, many other concerned citizens attended the event & helped collect trash along the banks.

One photo shows a scout from Troop 481 of Fairfield (the boy in the Lake Berryessa shirt) - he was one of the all-star trash sorters. In addition to the all-star trash sorters, Jason Jordan and several rangers worked very hard sorting the recyclables and then loading up everything and taking it away to be recycled or disposed of properly. Thank goodness for the BOR!

Rodger Hazeltine of Napa Dive and Sport did a terrific job orchestrating the event. The divers were a key element since they were collecting from the bottom of the lake, and giving their findings to the kayakers, who then brought the trash to shore to be sorted. After the event, many people headed to Oak Shores for the bbq. The food was delightful and the prize give-aways were the best I have ever seen. To top it off, almost everyone walked away with a bottle of Napa wine! Thank you Rodger!

The statistics are below. Next year it would be great if we could use a scale to get a more accurate weight of the trash/recyclables collected. Any ideas on who we can borrow one from!?

Two more photos are on the way!

Thank you for all the support! The Lake Berryessa shirts and totes were a hit!

Coastal Cleanup 2008
67 divers, staff, kayakers, boaters, ground volunteers
69 ground volunteers that participated in the clean up.
Total: 136 people
660 pounds of trash - 1000 pounds of recycles - 27 pairs of sunglasses - 12 anchors - 5 tires - ladder - 5 car parts
1 bike – blender - 2 computer hard drives - 17 crawdads and fish were released
(Note: I don't believe the heavy items {computer, bikes etc} were weighed. Since the water level is 25 feet below the normal level for this time of year, the divers were able to get items from deeper in the lake. Rodger did mention that more heavy metal items were collected this year than in past years.)

Last Year Coastal Cleanup
1400 lbs of recyclables at the lake, which would equate to about 115 bags
623 pounds of trash last year

News from Capell Valley Elementary!

Meet Mrs. Debbie: Mrs. Debbie was born in Dallas Texas and came to California when she was 10 years old with her family. She has been married for 26 years and has 3 grown children, Ryan is 24, Britney is 22 and Chase is 20. All are Capell Valley Alumni. Chase is currently in the army on tour in Bagdad, Iraq. When Mrs. Debbie’s children were all at home, they loved to travel to different states and camp. Her children were very active in sports and 4H. Mrs. Debbie started her Career at Capell as a volunteer for two years and then in 1995 when chase started kindergarten she was hired as an instructional aide and in 2004 she became the secretary and resource aide. Throughout her years at Capell she has seen so many children grow up to become wonderful and successful adults. All the children that she has known through her years at Capell hold a special place in her heart and she takes great pride I n being a part of their education and futures.

Recent Parent Testimonial: *There are many reasons why I love Capell Valley Elementary. First and foremost the excellent staff and volunteers. They give my child what I believe is a top-notch education. I love the atmosphere at Capell, a small school where everyone knows each other. I love the fact that the teacher to student ratio is very low and the older children help the younger ones so they all succeed and no child is left behind. I love the fact that my child goes to school with others who live in our community. I truly feel that Capell Valley Elementary is a great school and I am very thankful that my child gets to attend there.* – Stephanie Botts.

We would like to invite everyone in the community to help support Capell Valley elementary by joining our **escrip** program! It’s easy! Just register your Safeway, Macy’s or Visa/Mastercard @ www.escrip.com and choose Capell Valley elementary as the school of your choice. Cappell Valley Elementary will receive a % of your purchases. Also, please feel free to donate to our **BOX TOPS** fundraiser! Just drop off your box tops at the school office. If you want more information about Capell Valley Elementary please contact Jon Soper at 707-252-2483 or via email @ jsoper@nvusd.k12.ca.us

HA! HA! HARVEY!!

I have no idea if this works, is edible, or as they say, dangerous. If someone has the time and inclination, let me know.

The most dangerous chocolate cake recipe in the world

5 MINUTE CHOCOLATE MUG CAKE

- 1 Coffee Mug
- 4 tablespoons flour(that's plain flour, not self-rising)
- 4 tablespoons sugar
- 2 tablespoons baking cocoa
- 1 egg
- 3 tablespoons milk
- 3 tablespoons oil
- 3 tablespoons chocolate chips (optional) some nuts (optional)
- Small splash of vanilla.

Add dry ingredients to mug, and mix well . Add the egg and mix thoroughly.
Pour in the milk and oil and mix well.
Add the chocolate chips (if using) and vanilla, and mix again.
Put your mug in the microwave and cook for 3 minutes on high.
The cake will rise over the top of the mug, but don't be alarmed!
Allow to cool a little, and tip out onto a plate if desired. EAT!
(this can serve 2 if you want to share!) And why is this the most dangerous cake recipe in the world?
Because now we are all only 5 minutes away from chocolate cake at any time of the day or night!
This is untested... somebody needs to tell me if it's any good :-)

Another great Crafts Man at the Spanish Flat Fest. . Gords made into bird houses, purses, planters and many other items. Sorry no name? I lost it? But You know who you are!

FISHING WITH SID!!

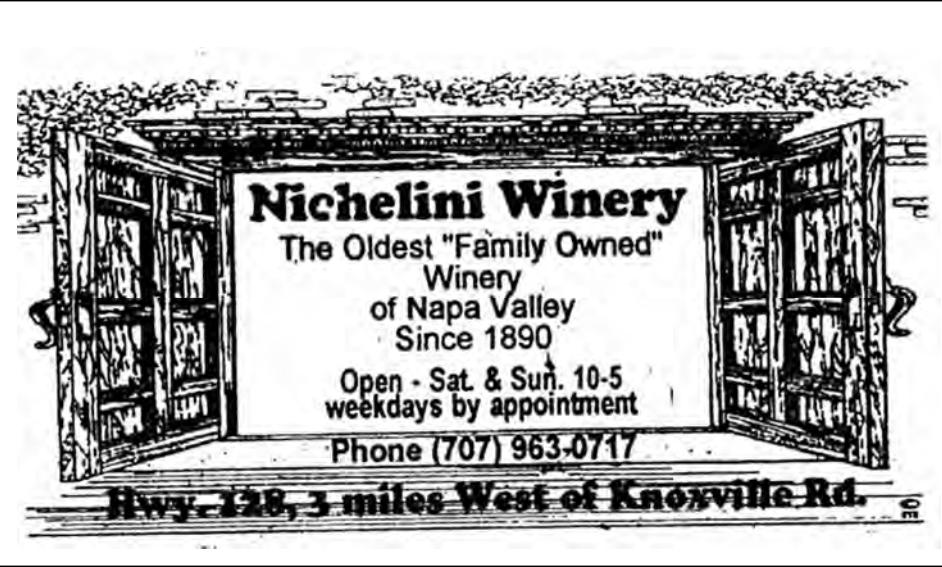

On Friday I headed out of Steele Park and at the point across from Spanish Flat I noticed lots of bait action. I decided the time was right to try some top water lures. I threw a white and chartreuse chugger and on my third cast towards the rocky shoreline in about ten feet of water I got smacked by a 2+ pound bass. What a great feeling!!!!!! I love that top water bite. I continued to work the shoreline into the cove and I continued to land some nice size bass. The bass seem to be more aggressive to the crankbaits then to the worm that I have been dragging. Saturday I went out with Albert in the late afternoon. We have been fishing together off and on for the last couple of weekends and poor Albert was not having too much luck. Well he made up for it Saturday by catching a 3 pound crappie and I caught an 8.5 pound catfish and Albert was just fed up with me (he loves catfish) so I told him you can't give up. We stayed at the dock after dark and it paid off big time for Albert, he ended up landing a 16 pound 11 ounce CATFISH!!!!!! (see photo) Needless to say he was beyond happy he had always wanted to catch at least a 10 pound fish (any fish!!!) so he was thrilled. Sunday I trolled for awhile with no luck. All in all it was a pretty good weekend and I am just over-joyed for Albert. Friday I had kept a couple of the bass and I had them in a cooler on ice in front of my cabin. During the night raccoons helped themselves to a fish feast and didn't leave any for me. To add insult to injury, they ate the fish on my golf cart and left scales all over the floor. I guessthey needed the fish more than I did and I hope they enjoyed it. 'til next week.....good fishing!!!!!!!!!!

Priceless!

Top Ten Reasons to Elect

Peter Kilkus

To The Napa County Regional Park and Open Space District (RPOSD*)

1. He will bring effective representation at the County level to the long-ignored Lake Berryessa region, as well as Pope Valley, Angwin, Calistoga, St. Helena, and the rural areas of the north and east County, including a strong commitment to the renewal of Lake Berryessa.
2. He is committed to the goals of the RPOSD, but he would also like more emphasis on family-friendly, multi-use bike and hiking paths and parks rather than the present focus on more strenuous, limited-use “adventure-hiker trails” in remote rural areas.
3. He is an energetic, hands-on manager with contract negotiation and multi-agency collaboration experience and will personally work on District project details, including strategic planning and budgeting.
4. He can and will work professionally with the Lake Berryessa resort owners and the Bureau of Reclamation in the rebuilding of Lake Berryessa to include family-friendly, nature-based recreational opportunities for Napa County residents.
5. He is president of the Lake Berryessa Chamber of Commerce (www.LakeBerryessaChamber.com), editor of the Lake Berryessa e-News (www.LakeBerryessaNews.com), and president of Berryessa Environmental Management Systems (www.BerryessaEnvironmental.com).
6. He represents the Lake Berryessa Chamber of Commerce in the Napa Valley Conference and Visitors Bureau (now the Destination Council) and has led a successful three-year effort to have Lake Berryessa recognized as a valuable and integral part of the legendary Napa County experience.
7. He has been a senior trainer and board member of an environmental education non-profit group and would like to help broaden Napa County’s sustainability vision to make it more inclusive.
8. He has more than twelve years in public service as a Town Councilmember and Mayor, Recycling Committee member, Economic Commission member, and Telecommunications Agency member.
9. He has more than 25 years of experience in telecommunications management ranging from electronics manufacturing to product marketing to quality assurance, having originally started his career as a physicist.
10. He enjoys working with people and resolving potential conflicts.

* In November of 2006 Napa County voters approved creation of the RPOSD. The District is authorized to plan, improve and operate a system of public parks, trails, outdoor recreational facilities, and outdoor science and conservation education programs, as well as to protect and preserve natural areas, wildlife habitat and other open space resources.

The Miracle of Friendship

There's a "Miracle called friendship" that dwells within
the heart,

And you don't know how it happens
or when it gets its start...

But the happiness it brings you always gives a special lift.

And you realize that "friendship"
Is God's most precious
Gift.

HAPPY BIRTHDAY
TO ALL OF YOU IN OCTOBER

Another Funny Ha! Ha! Harvey
Following the financial crisis on Wall Street uncertainty has now hit the banking sector in Japan.
In the last seven days Origami Bank has folded, Sumo Bank has gone belly up and Bonsai Bank announced plans to cut some of its branches.
Yesterday, it was announced that Karaoke Bank is up for sale and will likely go for a song, while today shares in Kamikaze Bank were suspended after they nose-dived. While Samurai Bank is soldiering on following sharp cutbacks, Ninja Bank is reported to have taken a hit, but they remain in the black.
A spokesman for Haiku Holdings was lost for words over the financial crisis, while according to rumours Nippon Bank was starting to feel the pinch. Furthermore, 500 staff at Karate Bank got the chop and analysts report that there is something fishy going on at Sushi Bank where it is feared staff may get a raw deal. Meanwhile Geisha Bank has bowed to the inevitable and shut.

One trader lamented: "It's all gone to Shiitake."

HA! HA! Harvey New Stock Market Terms:

- CEO --Chief Embezzlement Officer.
- CFO-- Corporate Fraud Officer.
- BULL MARKET -- A random market movement causing an investor to mistake himself for a financial genius.
- BEAR MARKET -- A 6 to 18 month period when the kids get no allowance, the wife gets no jewelry, and the husband gets no sex.
- VALUE INVESTING -- The art of buying low and selling lower.
- P/E RATIO -- The percentage of investors wetting their pants as the market keeps crashing.
- BROKER -- What my broker has made me.
- STANDARD & POOR -- Your life in a nutshell.

Angels come to watch around us here
To soothe our sorrow, calm our fear,
Ye heavenly guides, speed not away,
God willeth you with us to stay.
God doesn't send them
Because we deserve it.
He sends them because we need the help.
Angels are literally messengers

"I believe that banking institutions are more dangerous to our liberties than standing armies. If the American people ever allow private banks to control the issue of their currency, first by inflation, then by deflation, the banks and corporations that will grow up around the banks will deprive the people of all property until their children wake-up homeless on the continent their fathers conquered."

FISHING WITH SID!!

Friday morning I took Roger and his grandsons Austin and Mackenna out for a day of fishing. It was a cold overcast morning and stayed that way most of the day. We headed out towards the vineyards stopping along the way at some key points. Mackenna who is eight landed the first fish which weighted approx. 2.5 pounds. He also brought in the second fish that weighted almost 2 pounds. Austin (who turned 12 that day) landed the third and fourth fish. Both boys did very well for the day. Roger really didn't get much of a chance to fish since he was busy taking pictures of the boys reeling in their fish and netting them. That evening I went into my favorite cove which is slowly drying up and only threw top water with no luck whatsoever. Saturday I went to my cove again and caught some nice bass on suspended baits by River2Sea and again no hits on top water. Saturday evening I fished with my buddy Albert for awhile and caught a six pound catfish. Sunday my friend Steve and I headed out at first light toward the Ranch House. As we trolled towards the vineyards we tried top water baits along the way with no response at all. Steve caught some bass with the River2Sea suspended bait which also landed a couple of trout (see photo on right).

Sunday turned out to be a tough day of fishing. We would see fish break, throw into the boil with no rewards. Most fish we saw on the screen were suspended. It was still a great weekend of fishing and should only get better. 'til next week.....good fishing!!!!!!! call me at 650-583-3333. www.fishingconnection.net at bestguide@hotmail.com

IN MEMORY OF VICTOR RAPHAEL

Victor Raphael passed away in Reedley, CA on September 21st, 2008 at the age of 89.

He is survived by five brothers and a sister including many nieces and nephews.

Victor served his country as a paratrooper in 82nd Airborne in WWII. He jumped behind enemy lines and fought in the Battle of the Bulge.

He was married to Shirley Turner for 32 years, who predeceased him January 1998.

Victor and Shirley lived in San Rafael and had a second home at Lake Berryessa.

Victor was the first operator of the gas dock and boat rentals at Rancho Monticello Resort.

In 1958 Victor founded the Monticello Ski Club at Lake Berryessa.

A Celebration of Victor's Life Gathering was held Friday, October 3rd, 2008 at the Elks Club in San Rafael.

1990 Lake Drought ...cont. from page 3

"If it doesn't rain, this lake could dry up in a few years, then you'll really get to see the whole town," said Jim Peterson, maintenance foreman for the Bureau of Reclamation. Downtown Still Underwater Downtown Monticello remains under 50 to 60 feet of water, but outlying areas are being revealed as the lake dries up -- a foundation here, an old swimming pool there, along with sunken boats, motors, fishing poles and tennis shoes. Indian artifacts also have been found.

Roads unused for decades have fresh tire tracks from explorers while the 1941 bridge, under water until this summer, is marked by muddy footprints as the span sits six feet above the lake's surface.

"People can walk across if they want, but it doesn't go anywhere," Mr. Peterson said. "For some reason, though, we're getting a lot of visitors even though there's not much to see except a few concrete slabs."

Arnold Roessler, a park ranger who is busy these days telling visitors how to find the emerging bits of the past, said people are searching for more.

"It's too bad about the drought, but some people are hoping that it continues just so we can see what's really down there," he said. "It's like a developing mystery."
